

David McIntosh

Experience

Flok Health · Series A Startup

Graduate Software Engineer · Sep 2025 - Present

Designed, built and shipped four integral production systems solo - a clinical code visualiser, a video pipeline, an OBS-integrated filming pipeline, and an end-to-end fixture-mocking framework. Most are now used daily.

Deployed 400+ lines in week two - Contributed across >10 projects. Became known as a high-velocity contributor across the company.

Consistently Self-Started - Redesigning a Core Clinical Tool used daily; Unblocked a stalled app release; Independently identified and implemented dozens of tooling improvements.

University of Cambridge

Supervising/Interviewing · Sep 2025 - Present

Interviewing - Conducted structured interviews for Cambridge application and assisted undergraduate selection.

Supervising - Delivered a course of university-funded tailored small-group teaching to other undergraduates. Taught data science - Frequentist and Bayesian inference.

Spandex · 1k Headcount

AI Strategy · Jun 2023 - Sep 2023

AI integration under CTO - Produced a 100-page report after shadowing every role in the company. Helped the Sales and E-Commerce managers to choose employee training tool and knowledge-base tool. Commended by head of HR.

LA Techniques Ltd

PicoVNA5 Solo Redesign · Jun 2025 - Aug 2025

Redesigned software used daily by 1000+ engineers - Daily meeting with lead developer, successive design iterations on customer feedback. Technical debt clearing and refactoring.

Softwire

Software Internship · Jun 2024 - Aug 2024

Events Management for non-profit - Pair programming, code review, Git fundamentals, full-stack web, client demos.

Education

Uni of Cambridge · 1st Class · Ranked 24th in Year

BSc Computer Science · Sep 2022 - Jun 2025

A Level · A*A*A*A* GCSE · 9A*s

Dissertation · 87.5% · Ranked 12th in Year

Novel approach to using Bayesian Networks to model and explain bias. Custom website: modelling-bias.com

Skills

TypeScript · Python · React · Svelte · SolidJS · Angular · SQL

Web Full-Stack · DevOps · Infra · Analytics · Deep Learning · Agentic Dev · Integration testing · Hermetic testing · UI/UX · Concurrency · ORMs · Docker · Terraform · Clinical software · Data Visualisation · Data Science · Scoping · User research · Cross-functional

Additional Experience:

Game Development

Nominated for a [YGD Bafta](#).

Competed regularly in game jams; Selection of games available [here](#).

Competitive Programming

[Top 2%](#) of users on Codewars; >100 Leetcode exercises; Participated in Codeforces competitions.

Chess

Joint winner of the U12 Welsh chess championships; Represented Wales for 4 years at Under-18 level.

Member of the winning team for the Welsh secondary schools championship.

Mathematics

Qualified for the British Mathematical Olympiad; won 3 gold awards in UKMT challenges.

Volunteering

Served as Green Officer on my college committee, organising dozens of student events.

Served as three different roles on the planning committee for the college's biannual May Ball, attended by >500 people.

Taught karate and chess. Led Computer Science Society at sixth form.

Hobbies:

Writing

Contributed to student newspapers. Winner of a national poetry competition. Written and hosted quizzes for groups of up to 50.

Public Speaking

Delivered several academic talks, such as [The bias against us: Predictable Inaccuracy in AI Hiring](#).

Reading

Interested in data science and bias, psychology, self-help, philosophy, evolution, the social impacts and ethics of computer science, internet culture, economics, politics. Attended an eight-week reading group sponsored by the Cambridge AI Safety Hub.

Sport

Black belt in Karate; coxed for the college rowing team; amateur lacrosse, korfbal, squash, volleyball, running.

Music

Grade 5 in piano. Composer and singer, with music on Spotify. Regular at Karaoke!

About Me

I want to make a real difference. I do my best work when I can move fast, own my work, and stay close to the people I'm building for.

I can play chess blindfolded, and I once hosted a six-hour quiz. I have never watched Star Wars but I trust this will not be a requirement for the role.
