

David McIntosh

Passionate and capable computer scientist with excellent theoretical knowledge, multifaceted corporate experience, and a keenness to learn. Communicative, empathetic, and determined to contribute meaningfully.

University of Cambridge – BSc in Computer Science (3rd Year)

September 2022 – June 2025

- **First Class** in Year 1 (Ranked 25th out of 140)
- **First Class** in Year 2 (Ranked 38th out of 137)
- **First Class** in Year 3 (Ranked 24th out of 134)

Relevant Courses: Machine Learning, Data Science, Deep Neural Networks, Algorithms, Discrete Mathematics, Type Theory, Computation Theory, Complexity Theory.

Dissertation: “Using Bayesian Networks to Simulate Bias in Algorithmic Recruiting”

- **Ranked 12th out of 133**
- Full Dissertation: <https://flamingowinter.github.io/dissertation>
- Explainer website: <https://modelling-bias.com/>

Work:

Softwire, Cambridge – Intern Software Engineer

June 2024 – August 2024

- Worked in a team of seven to build an events-management website from scratch within ten weeks for a non-profit partner.
- Worked full stack, emphasising clean code and robust architecture in a fast-paced agile environment.

Spandex, Bristol – Intern AI Consultant

June 2023 – September 2023

- Developed AI strategy under the direct supervision of the CTO, advising a multinational corporation on AI integration.
- Shadowed each role (management, marketing, sales, customer engagement, procurement, accounts receivables) in the organisation to deliver a 100-page report detailing strategy, risk mitigation, and practical recommendations for adoption across multiple departments.
- Led a project advising the managerial team on selecting a national training platform, collaborating with sales and e-commerce managers.

Freelance – Game Developer

March 2019 – October 2021

- Designed and developed the full version of Snakelaw Island (after winning a BAFTA Young Game Development award) now [available](#) on Steam.
- Managed the game’s development lifecycle, including programming, art, and music creation.

Skills:

Programming Languages: Python/Numpy/Pandas/Torch, HTML/CSS/Typescript, C, Kotlin, Ruby, SQL, Java.

Frameworks/Technologies: GitHub, Svelte, React, Unity, Godot, Unreal Engine, AWS, TypeORM, Agile Development.

Additional Experience:

Competitive Programming

- [Top 2%](#) of users on Codewars.
- Completed over a hundred Leetcode exercises, participated in competitions on Codeforces.

Game Development Competitions

- Competed regularly in game jams.
- Selection of games available [here](#).

Sudoku-Solver

- Developed a website for generating and solving sudokus using **HTML**, **CSS**, and **JavaScript** for a Sixth-Form project. Available [here](#).

Chess

- Joint winner of the Under-12 Welsh chess championships.
- Represented Wales for 4 years at Under-18 level
- Member of the winning team for the Welsh secondary schools championship.

Mathematics

- Qualified for the British Mathematical Olympiad and won 3 gold awards in UKMT challenges.

Volunteering

- Served as Green Officer on my college committee, organising dozens of student events.
- Served as three different roles on the planning committee for the college's biannual May Ball, attended by over 500 people.
- Taught karate and chess. Led the Computer Science Society at my sixth form.

Additional Education:

Pate's Grammar School – *Sixth Form*

September 2020 – June 2022

- A* Computer Science, A* Further Maths, A* Psychology, A* Maths
- Predicted A* after one year of Physics

Chepstow School – *Secondary School*

September 2013 – June 2020

- Eleven A*s

Hobbies:

- **Writing:** Contributed to student newspapers. Winner of a national poetry competition. Written and hosted quizzes for groups of up to 50.
- **Public Speaking:** Delivered professional talks to Cambridge students, such as [this](#) (“The bias against us: Predictable Inaccuracy in AI Hiring”).
- **Reading:** Interested in data science and bias, psychology, self-help, philosophy, evolution, the social impacts and ethics of computer science, internet culture, economics, politics. Attended an eight-week reading group sponsored by the Cambridge AI Safety Hub.
- **Sport:** Black belt in Karate; coxed for the college rowing team; runner; amateur lacrosse, korfball, squash.
- **Music:** Grade 5 in piano. Composer and singer, with music on Spotify.
